

## **McGraw Systems LLC to present bStable® at the 2009 Micronutrients for Mental Healthcare Conference in San Francisco, CA.**

WOBURN, Mass. – October 8, 2009 – McGraw Systems LLC today announced the company has been selected to present at this year's 2009 Micronutrients for Mental Healthcare Conference to be held at the Hotel Monaco in San Francisco, California on Friday and Saturday December 4 & 5th, 2009. McGraw Systems' President and CEO Benjamin F. McGraw IV will be available to demonstrate bStable®, a Computerized Life Management System at the conference.

This is the 1<sup>st</sup> Annual Micronutrients for Mental Health Conference, where leading experts, clinicians, and researchers will share their knowledge on the role of vitamins, minerals, amino acids, and essential fatty acids in mental health.

"We are extremely grateful for this tremendous opportunity to present our work at this leading edge conference. We have experienced a strong interest in bStable® since the product launch at the 2008 Depression and Bipolar Support Alliance (DBSA) conference in Norfolk, Virginia. We hope to expand awareness of bStable® to mental healthcare professionals, patients, and loved ones on the forefront of researching new alternatives to help patients and loved ones suffering around the world with challenging mental disorders." said Benjamin F. McGraw IV, President and CEO of McGraw Systems LLC."

bStable® tracks and manages every aspect of the patient's life impacted by Depression and Bipolar Disorder including crisis planning, scheduling, expense tracking, thought conditioning and thought management. Over 40 rich, interactive, graphical reports are standard with bStable®. These reports provide an updated status on the patient's life and can be consolidated and sent to medical professionals and loved ones for preventative care. bStable® also has a module focused on adolescents and children. This module allows the tracking of behavior exhibited by adolescents or children suspected of having bipolar disorder symptoms.

bStable® retails for \$99. Additional copies of bStable® for loved ones or medical professionals associated with the patient can be purchased at the normal friend, family, or medical provider rate of \$49.
