

McGraw Systems LLC Launches bStable™ at The 2008 Depression and Bipolar Support Alliance (DBSA) National Conference in Norfolk, Virginia

WOBURN, Mass. – September 10, 2008 – McGraw Systems LLC today announced the company's flagship product, bStable™, a comprehensive personal life management system for individuals suffering from bipolar disorder will be made available for purchase at the annual DBSA conference at the Sheraton Norfolk Waterside Exhibit Hall from 1:00pm to 6:30pm Friday, September 12th and from 10:00am to 4:00pm Saturday, September 13th.

"We are excited to launch the first and only comprehensive personal life management system for those suffering from this incredibly challenging disorder," said Benjamin F. McGraw IV, President and CEO of McGraw Systems LLC.

bStable™ tracks and manages every aspect of the patient's life impacted by bipolar disorder including crisis planning, scheduling, and expense tracking. Over 40 rich, interactive, graphical reports are standard with bStable™. These reports provide an updated status on the patient's life and can be consolidated and sent to medical professionals and loved ones for preventative care. bStable™ also has a module focused on adolescents and children. This module allows the tracking of behavior exhibited by adolescents or children suspected of having bipolar disorder symptoms.

bStable™ retails for \$99. Additional copies of bStable™ for loved ones or medical professionals associated with the patient can be purchased at the normal friend, family, or medical provider rate of \$49.
